**\*IMPORTANT\***

**About 10-20% of your final outcome depends upon how well you heal.** Taking your eye drops (and pills if prescribed) properly is a significant part of your healing process.

Please remember to **bring** all of your eye medications **to surgery and to all postoperative visits.**

Pharmacies often dispense substitutes for what Dr. Davidson prescribed, and those substitutes may have a different dosing frequency, for example four times rather than the prescribed twice daily.

So regardless of what may be printed on this schedule and other information sheets regarding the frequency of your eye medications, **please use them as directed on the label that the pharmacy printed on the box,** and modify this twice-daily dosing schedule accordingly.

Best wishes with your healing phase!                      -Dr. Davidson & Staff
